Barcelona the 14th of February, 2018

Through this letter I state that Margaux Vigie is a responsible, dynamic person, committed to carrying out her duties and with the ability and willingness to learn quickly. In addition, her ease and predisposition to teamwork is remarkable, as well as her attitude

Margaux "worked" at the Center de Rehabilitació i Medicina Física in the last quarter of 2017, through the school of physiotherapy Physiotherapy Barcelona EUSES Universitat de Girona to carry out the academic practices. During this time, she served as a trainee physiotherapist. In addition, her work was fundamental in the organization of the professional team of the center, since she collaborated to a great extent, with an unbeatable attitude as one of the team.

It is also worth noting the acceptance by the patients, it left a very good opinion among them.

Among the tasks performed, the following stand out:

- Patient care.
- Organization in the therapeutic classroom
- Electrotherapy placement
- Supervision of therapeutic exercises performed by patients.
- Manual therapy

Through this writing I confirm that Margaux is a good professional. Her performance and her personal behavior allow me to highly recommend her.

For the record for the appropriate purposes, I sign this letter and remain at your disposal to clarify any questions or provide more information.
